ULTIMATE COMICS SPIDER-MAN 157

Bendis & Bagley Love Spider-Man to Death

They're the men who set the standard for the entire Ultimate line. They produced more consecutive issues of a superhero comic than any other duo in history. They've produced more Spider-Man tales than any other writer or artist in Spider-Man history.

And in March, they become the men who killed Spider-Man.

Brian Bendis and *Mark Bagley* made history back in 2000 when they introduced readers to a new Marvel Universe in ***Ultimate Spider-Man #1.*** In this contemporary world, teenager Peter Parker gained his spider-powers before the eyes of a new generation of readers. All the core elements were restored: Peter Parker was a studious high school student, his Aunt May worried over him, he was a novice at superheroics, and he met his most famous villains all over again for the first time.

For 111 issues—some of which were produced at the breakneck pace of eighteen issues a year—Bendis and Bagley made ***Ultimate Spider-Man*** a must-read title, offering surprise twists and imaginative reinterpretations of classic characters, along with character-driven storytelling of the sort all too rarely seen in comics today.

Soon after, an artistic opportunity took Bagley from Marvel to DC, where he worked for three years on ***Trinity, Batman,*** and ***Justice League of America.*** But his contract with DC expired in late 2010, and in early 2011 Marvel confirmed that not only had Bagley signed a new contract, but also that he was reuniting with Bendis for the historic "Death of Spider-Man" finale in ***Ultimate Comics Spider-Man #156 & 157.***

"While I appreciate the opportunities DC afforded me, it's great to be coming home to my first love—Marvel," Bagley said. "I'm thrilled to be working with Brian again and I'm totally excited by our new project."

Bendis's comments were far more enthusiastic. "I've been jumping up and down with excitement! Mark and I have huge plans this year both in both the Marvel Universe and Ultimate Comics Universe and this is just the beginning. Join me in saying my new favorite catchphrase: Bagley's Back!!"

At first, Bagley wasn't sure if he wanted to take the assignment when it was offered to him. "I wasn't sure that returning to ***Ultimate Spider-Man*** was the right thing for me to do," Bagley said. "I just wasn't sure if it was the right thing for me artistically—I had drawn so many issues of the series, and I didn't want it to seem like I was just trying to pick up where I left off. I was going to take another project instead when Brian called and described what was happening in this story arc."

"We stayed in contact over the time he was at the other place," Bendis added. "I just wanted him to know periodically that I did miss him and, even though we were never the types to talk every day, I find that our collaboration was so pure and so surprising to both of us. I wanted him to know that even though he may not have missed me, I didn't need *him* to miss *me* for *me* to miss *him*," Bendis explained with a smile.

"He made it pretty clear he was ready to come back—and he made it pretty clear that at least some of the reason was he wanted to work with me again. We talked about a new number of ideas and series that would absolutely be fun—and some of these ideas we *will* be doing—but as time drew closer, Joey Q [Joe Quesada, then Marvel's editor-in-chief] and I started to talk seriously about this idea that had been percolating for a couple of years. I was surprised to find out that the timing of Mark's return and the time to do the story seemed to be coming together pretty fantastically."

"I already knew that I wanted to work with Brian again—we have real chemistry together, and I've never worked as well with any other writer as I did with him," Bagley said. "Brian showed me that this would be a wonderful way to return to Marvel, so here I am."

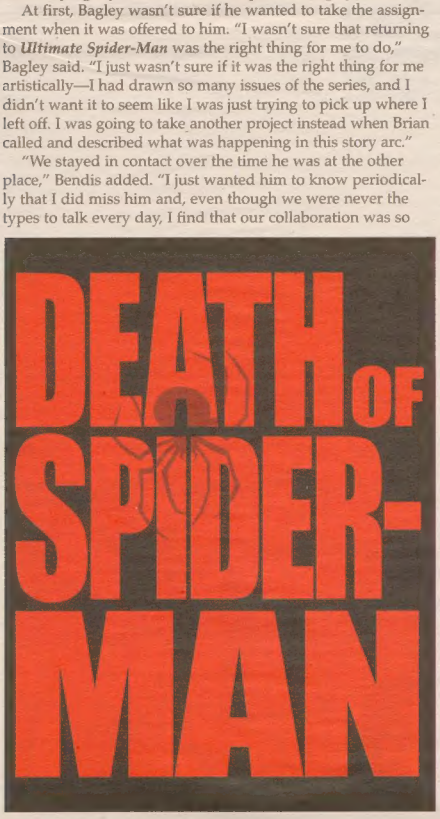
"I was almost completely sure that Mark was absolutely *not* going to come back to this book," Bendis admitted, "but I do think that his return to the book for this story would be the best 'Welcome back, Mark' story that Marvel had to offer. I was so happy that Mark agreed—it meant he really *did* miss me!"

What is it that makes the Bendis/Bagley team work so well? "We just seem to 'get' each other," Bagley said. "We both love what we're doing, and we seem to work really well together. Working with Brian is a lot of fun; our talents complement each other very well."

Even when he was working at DC, "***Ultimate Spider-Man*** was one of the few books that I picked up every month," Bagley said. "I wanted to see what Brian was doing; his stories were just as terrific as they were when I was there, and he was working with great artists. From those three years as just an ***Ultimate Spider-Man*** reader, I can say that it remained one of the best comics on the racks."

Obviously the two made a great team during Bagley's original tenure on ***Ultimate Spider-Man;*** how have things gone since he returned to Marvel? "Pretty much exactly like it was when he left!" Bendis said. "I'm so happy with the new pages. Everything he has handed in so far has shown a dramatic maturity in his draftsmanship and a real passion that you cannot fake."

"I think that readers are going to see a real improvement in my work. I've worked to improve my basic drawing skills during my three years away" Bagley said. "I can look back at my early ***Ultimate Spider-Man*** and see mistakes and weaknesses that I don't think I'd make now. I believe I'm a better artist now than I was then, and I think it shows in my work for this story."



The story is called "The Death of Spider-Man"—is this another one of those "death" stories that turns out to be deceptive, or are we going to be looking at real death here? "This is one of those questions that I can't answer clearly without spoiling the surprise of the story," Bendis said, "and I *really* want the story to have surprise. But what I *can* promise you—and I *do* promise you—is that the outcome of this story, and the story going forward, is something you have *never* seen in a Spider-Man comic book. You have never seen it in a movie, TV show, or any other medium or publication that has featured Spider-Man. This is a bold surprise. I think a lot of you are going to enjoy it, and I think a lot of you are going to want to tear my head off. I may just unhook my computer from the internet..."

Does that mean that this will be the end of the Ultimate Universe's flagship series? "You'll find out this summer," Bendis said, smiling enigmatically.

Ultimate Spider-Man #156 & 157 mark the return of the Bendis-Bagley team—and Bendis assures readers that it's *not* a one-time reunion. "The cool thing is when we're done with this, we have a project lined up that I think will really surprise some people," Bendis said. "Or I might just go write ***Batman*** and show him how it feels," he added with a laugh.

Ultimate Spider-Man #156, a $3.99 comic, is scheduled for late March release; ***Ultimate Comics Spider-Man #157,*** which Marvel describes as "the real deal—the Death of Spider-Man," follows three weeks later, and the Bendis/Bagley collaboration continues for six more issues after that, developing that surprise that Bendis hinted at a few paragraphs earlier...

•DC has announced the contents for its Free Comic Book Day release, and it's going to be a book that no one will want to miss. The ***Green Lantern/Flashpoint FCBD 2011 Special Edition*** will combine a reprint of ***Green Lantern #30*** (a pivotal chapter in the ***Green Lantern: Secret Origin*** saga, currently available in trade paperback) and the first sneak peek of *Geoff Johns & Andy Kubert's* upcoming ***Flashpoint,*** DC major event for 2011. Remember the excitement generated by ***Blackest Night #0?*** Well, it looks like lightning is about to strike twice...

•Last year, Marvel said that vampires would play an important role in the Marvel Universe in coming months. More recently, they specifically mentioned Dracula as a character who would play an important role in the company's 2011 event ***Fear Itself.*** Now they've revealed just what that vampiric role in the Marvelverse might be: they've released a teaser image for an until-now-unreleased April title, ***Throne of Blood: Birth of a Vampire,*** written by *Victor Gischler* and illustrated by *Goran Parlov.* The teaser text indicates that "a game changer in ***Fear Itself*** stands revealed. He will leave the Marvel Universe a different place. His story begins here. Thought you knew everything about vampires? Don't be so sure. You will never look at vampires the same way ever again." The $3.99 comic is slated for early April release.

•Wizard owner *Gareb Shamus* has announced that ***Wizard Magazine*** and ***Toyfare*** will cease publication effective immediately, although the company will continue to run numerous conventions and will launch a digital magazine, ***Wizard World.*** The final issues of both print magazines have already been released.

•Last week, ***CSN*** told you that DC Comics was ending its participation in the Comics Code Authority, and would launch its own self-ratings system instead. Now comes word that Archie Comics is also ending its association with the Code, effective this month. Archie stresses that there will be no change in the family-friendly, all-ages-safe content for which Archie has been known for decades.
